Directors' Report

Dear Investors,

We are pleased to present the Annual Report, including Audited Financial Statements of CaixaBank Wealth SICAV (the "SICAV") as at December 31, 2020. It includes the Investment Management Report produced on behalf of the Board of Directors of the SICAV for the active sub-funds. The SICAV is registered in the Grand Duchy of Luxembourg as a *Société d'Investissement à Capital Variable* pursuant to Part I of the Law of December 17, 2010 (the "Law") related to Undertakings for Collective Investment, as amended.

CaixaBank Asset Management Luxembourg S.A. has been appointed as new Management Company. CaixaBank Asset Management Luxembourg S.A. is a Luxembourg management company licensed by the *Commission de Surveillance du Secteur Financier* to manage Undertaking for Collective Investments in Transferable Securities as per Chapter 15 of the amended Law of December 17, 2010.

Role and Responsibility of the Board of Directors of the SICAV (the "Board")

The responsibility of the Board is governed by Luxembourg Law. With respect to the Annual Report, including Audited Financial Statements of the SICAV, the duties of the Board are governed by the Law of December 10, 2010 on, inter alia, the accounting and annual accounts of Undertakings for Collective Investment and by the amended December 17, 2010 Law.

Board Composition

Our Board is composed of a majority of independent directors and as a whole has a breadth of investment knowledge, financial skills, as well as legal and other experience relevant to the SICAV's business. Directors are elected annually by shareholders at the Annual General Meeting.

Board Meetings and Corporate governance

In 2020 the Board has formally met each quarter in line with our objectives to meet at least quarterly, with additional meetings being convened as required from time to time by the business of the SICAV.

Prior to each Board meeting the Directors received detailed and timely information allowing them to be prepared for the items under discussion during the meeting. For each quarterly meeting the Board receives reports consolidated by the Management Company on the basis of information received from the Investment Manager, the Distributor, the Depositary Bank, the Administrator, the Transfer Agent, the Risk Management and the Auditor. Senior representatives of the Management Company and other providers attend Board meetings to enable the Directors to question the reports presented to them.

Once a year, the agenda includes, amongst other matters, the approval of the Annual Report, including Audited Financial Statements.

The Board is responsible for ensuring that a high level of corporate governance is met and considers that the SICAV has complied with the best practices in the Luxembourg funds industry.

In particular the Board has adopted and is committed to follow the ALFI Code of Conduct which sets out principles of good governance. The Board undertakes an annual review of ongoing compliance with the principles of the Code.

Annual General Meeting

The next Annual General Meeting of the Company will be held on April 13, 2021 at the Registered Office of the SICAV to consider matters relating to the year ended on December 31, 2020.

Investment Management Report

We will remember 2020 as the year of the global pandemic. Health has been at stake, economies have deeply suffered and there has also been space for a stressed US election and to finally close the Brexit negotiations. Across this environment the global stock market finished up a 5% (MSCI All Countries Local Currency's).

On the economic front, following the positive 2019 trend, the year started with high expectations of a positive global growth for 2020, achieving low unemployment rates in many developed countries. Under this scenario, global financial markets had a strong start into the year. Meanwhile, COVID-19 was hitting China hard and was declared a public health emergency by the WHO at the end of January, but global stock markets continued to hit new highs until mid-February. The number of cases outside of China seemed to be fairly contained at that point. As cases outside China started to go up, the different health capabilities couldn't cope with the growing hospitalized patients and government placed restrictions on travel and finally strong lockdowns. As a consequence, in March, equity markets declined over 30% with highly volatile days.

Driven by governments restrictions, economies were locked and a deep recession was expected as activity heavily dropped. Since then, monetary and fiscal policy have played a key role. The major central banks launched different schemes to reassure the financial system by slashing rates and/or providing unprecedented measures of support. The FED played both approaches, as of the end of the year rates are kept down to 0% since February and the FED keeps explicitly committed to purchase at least USD 80 billion per month of Treasuries and agency MBS, while the ECB, already with very low rates, had a very strong focus on the quantitative programs (as of today, EUR 1,850 billion planned on asset purchases until the end of March 2022). In August the FED changed their inflation target of 2% moving into a 2% average target, setting a new landscape for the monetary policy in the US. Governments have had to aid their economies with different measures, from furlough schemes to direct financial help to households and companies.

Directors' Report (continued)**Investment Management Report (continued)**

Despite the different country approaches, their main aim was to avoid that the economic shock dragged too much the expected recovery once the pandemic could be handled. A major European coordination was achieved on the summer, allowing a "game-changer" on the Eurozone scene: it was approved a 750 EUR billions European Recovery Fund, against the European budget, therefore backed by all the Euro member countries. On top of a positive high fiscal expansion, the solution provides a mutualized approach that makes the Eurozone concept grow stronger. The Recovery Fund and the European Budget for the next seven years have been approved with a strong environmental focus with significant investments in renewable energy. Meanwhile since end of July, in the US, negotiations between both parties were not able to coordinate an extension of the fiscal aid program until the last days of the year which brought the long-awaited relief for pandemic-stricken companies and households.

The pandemic different waves have been impacting since spring. Over the last quarter, new infection rates rose significantly in Europe and the US, topping previous highs, forcing new stringent lockdown measures to slow the spread of the virus. These measures again dragged on activity and despite the economy keeping the recovery pace that started over the summer, the service sector and unemployment rates were hit. On top of this Eastern Asian economies were able to control the spread of the virus, allowing an early opening of their economies. China has been able to come back to normal activity levels on Q4 with strong economic data. Since late summer, the concerns over the rising cases were overshadowed by the different vaccine announcements: Pfizer-BioNTech, Moderna and AstraZeneca/Oxford announced in November, that their vaccines were effective in reducing symptomatic cases of COVID-19. The path to recovery was set and risky assets focused on it, disregarding the potential challenges ahead (logistics, manufactured speed, large scale administration...), enabling an even stronger recovery of markets since November.

On the political side the US Elections and Brexit have been the main highlight across the year. The markets reacted positively on the election result and had already priced in the latter. The prospect of a less confrontational presidency under Joe Biden, together with a divided Congress that might prevent both tax hikes and a tightening of regulation for technology and health care companies, pleased markets. As the year ended, in Europe finally and after long negotiations, the EU and the UK were able to close a Brexit agreement.

The strong intervention from central banks in the fixed income markets have been key to understand the fixed income sector returns. Despite a liquidity shock in February and March, quick Central Bank intervention has been fixing the market since then. Rates and yields have remained extremely low since then. The confidence on growth since the elections result and the vaccine announcement boosted high yield and brought some steepening, especially on the US market. It has been a good year in terms of returns for the bond market. On sovereigns, Euro government performed a 5% performance, US treasuries an 8%, Emerging debt a 6%. Global Investment grade closed above 10% while the Euro IG achieved a 4% performance, on the risk credit side European High Yield achieved a 2% while the US High Yield was up to 6%, both having a very strong last quarter.

As said, taking into account what has happened, it has been a good year. On March 23, global markets were heavily down, a 34% drop in the S&P, due to the fear on the virus and its economic consequences. The strong monetary and fiscal policies helped the equity markets, providing confidence on the outcome. By August 18, the S&P already exceeded February highs. Markets recovered on record time. Nevertheless, COVID-19 accentuated differences in market share, earnings, and wealth. Big Tech's market cap share of the S&P 500 soared, reaching concentration record levels with the five largest companies accounting over 20% of the index's total value. Since November, stocks also reacted positively to the election result and the vaccine announcements as the path towards recovery and a higher fiscal budget seemed to have a higher probability. Defensive and growth stock bias have been benefited from the fear environment and the shift to online caused by COVID-19 until November, since then confidence on the recovery path boosted cyclical and value stocks. Across the whole year earning season reports have been volatile with many companies not providing market outlooks on the first quarter and beating the bar of expected earnings on average afterwards. Emerging market, with Asia highly contributing, closed almost with a 20% performance. While the US S&P managed to match Emerging markets with an 18% performance, Japanese Nikkei fell slightly behind with a 15% and the European markets lagged behind down to negative territory with a -5% for the Eurostoxx50 and almost -10% for the UK FTSE. The US Dollar acted as a safe haven asset over the market shock. Since then, as confidence on a better outcome grew and the rates differentials between the US and the Euro and other currencies have narrowed, the US Dollar weakened. The Euro performed against the main currencies, despite being hard hit by the virus, the Recovery Fund agreement and the strong ECB commitment providing liquidity and a low rate environment to refinance debt achieved a stronger Euro cohesion. The British Pound rallied on the back of the Brexit closing deal.

While industrial commodities were hit hard on the first half of the year, the precious metals, especially gold with almost a 50% increase on 2020, outperformed. The crude oil had a very volatile year. On April we had an historic event when oil prices went negative for the first time in history. Future contracts for WTI oil fell to -\$37, with producers actually paying traders to take oil off their hands. This happened due to the dual shock of falling demand and a price war which disrupted prices. Oil has since recovered from this shock, cruising back to regular levels (Brent oil closed at \$50, with a flat performance across the year).

CaixaBank Wealth SICAV - CAIXABANK WEALTH SALUTARIS FUND

CaixaBank Wealth SICAV - CAIXABANK WEALTH SALUTARIS FUND (the "sub-fund") was launched on February 2, 2017. The sub-fund holds equities, fixed income and cash, with the focus in fixed income market seeking a capital protection over the medium term. The sub-fund may get exposure to assets such as commodities, infrastructures and real estate by investing through eligible ETFs, UCITS or other eligible UCI pursuant to the UCITS directive.

In equities, a priority was given to geographic areas where profit growth is substantial and valuations are attractive. These investments were made through direct shareholdings in companies and through ETFs, funds and futures, in order to take a directional position.

In fixed income, the main objective was preservation of capital being the largest risk the rise in interest rates. For this reason, duration was kept low. A large portion of the portfolio consists of direct bonds, a majority of them floating rate notes. ETFs and futures are also used to take positions in some markets, or to tactically modify duration.

The sub-fund returned 2.20% (Class E) in 2020. The main positive return driver was exposure to equities and fixed income investments.

Volatility was 8.82% during the year.

Directors' Report (continued)

CaixaBank Wealth SICAV - CAIXABANK WEALTH SALUTARIS FUND (continued)

We think it will be a volatile year for the equity markets and we'll have investment opportunities. Regarding fixed income market, risk premiums and corporate risk premiums should be supported by ongoing ECB reinvestments.

CaixaBank Wealth SICAV - CAIXABANK WEALTH INVESTO FUND

CaixaBank Wealth SICAV - CAIXABANK WEALTH INVESTO FUND (the "sub-fund") was launched on July 4, 2016. The sub-fund invests in multiple asset classes, including money market instruments, equities, bonds and currencies. CaixaBank Wealth SICAV - CAIXABANK WEALTH INVESTO FUND may get exposure to assets by investing through eligible ETFs, UCITS or other eligible UCI pursuant to the UCITS directive.

The sub-fund has a multi-asset and flexible portfolio, changing its exposure to different assets and geographical areas depending on market conditions and view of Investment Manager.

On the bond side, duration was raised from 1.07 years to 1.87 at the end of the year. This duration has been increased both by buying corporate bonds in the primary market, and by replacing Italian treasury bonds with negative yields with bonds with longer duration and positive yields. Although the main corporate bond issuers come from financial sector companies, exposure to other sectors has been raised to a level not far from that of financial issuers. In government bonds, the exposure comes mainly from Italian government bonds.

On the equity side, the sub-fund is focused in European equities and has an exposure of 42% at the end of the year. During the year, exposure to the healthcare sector was significantly reduced to approximately 15.5% and increased to the industrial sector to 15% and to utilities linked to green generation.

Throughout the year, dollar exposure has been progressively reduced from 9% to 3% of the Total Net Assets ("TNA").

The sub-fund generated returns of 3.44% (Class I) in 2020. The main positive return driver was exposure to equity, and the exposure to fixed income markets also had a positive return. Foreign currencies investments had a negative return.

Volatility has increased to 10.98% during the year.

As we close the year, we hold a positive outlook for peripheral public bonds, fixed corporate bonds, and European equity market, helped by the EU, and the European Central Bank. In the short term, the market may have significant volatility.

CaixaBank Wealth SICAV - CAIXABANK WEALTH DEPENDABLE FUND

CaixaBank Wealth SICAV - CAIXABANK WEALTH DEPENDABLE FUND (the "sub-fund") was launched on September 6, 2018. The sub-fund invests in multiple asset classes including money market instruments, equities, bonds, alternative assets and currencies. The sub-fund may get exposure to assets such as commodities, infrastructures and real estate by investing through eligible ETFs, UCITS or other eligible UCI pursuant to the UCITS directive.

In equities, a priority was given to geographic areas where profit growth is substantial and valuations are attractive. These investments were made through ETFs and funds, in order to take a directional position.

In fixed income, the main objective was preservation of capital. A large portion of the portfolio consists of floating rate notes, inflation linked bonds and convertible bonds. The biggest currency exposure of the sub-fund is in British Pound and Norwegian Krone.

The sub-fund had returns of 9.46% (Class I) in 2020. The main positive return driver was exposure to equities and fixed income investments.

Volatility was 15.50% during the year.

We think it will be a volatile year for the equity markets and we'll have investment opportunities. Regarding fixed income market, risk premiums and corporate risk premiums should be supported by ongoing ECB reinvestments.

CaixaBank Wealth SICAV - CAIXABANK WEALTH CALEDONIAN FUND*

CaixaBank Wealth SICAV - CAIXABANK WEALTH CALEDONIAN FUND* (the "sub-fund") was launched on September 7, 2020. The sub-fund has a multi-asset and flexible portfolio, changing its exposure to different assets and geographical areas depending on market conditions and view of Investment Manager. The sub-fund invests in multiple asset classes including money market instruments, equities, bonds, and currencies. The sub-fund may get exposure to assets such as infrastructures and real estate by investing through eligible ETFs, UCITS or other eligible UCI pursuant to the UCITS directive.

On the bond side, duration was raised to 4.4 years at the end of the year, supported by expansive central bank's monetary policy. A large portion of the portfolio consists of direct bonds and ETFs, including inflation linked bonds. In government bonds, the exposure comes mainly from Italian government bonds.

In equities, a priority was given to geographic areas where profit growth is substantial and valuations are attractive. These investments were made through direct shareholdings in companies and through ETFs, funds and futures, in order to take a directional position. The biggest currency exposure of the sub-fund is in US Dollar and British Pound.

The sub-fund had returns of 4.11% (Class I) in 2020. The main positive return driver was exposure to equities and fixed income investments.

CaixaBank Wealth SICAV - CAIXABANK WEALTH NYALA INVESTMENTS FUND*

CaixaBank Wealth SICAV - CAIXABANK WEALTH NYALA INVESTMENTS FUND* (the "sub-fund") was launched on December 11, 2020. The sub-fund invests in multiple asset classes including money market instruments, equities, bonds and currencies. The sub-fund may get exposure to assets such as commodities and real estate by investing through eligible ETFs, UCITS or other eligible UCI pursuant to the UCITS directive.

In equities, a priority was given to geographic areas where profit growth is substantial and valuations are attractive. These investments were made through direct shareholdings in companies and through ETFs, in order to take a directional position.

In fixed income, the main objective was preservation of capital being the largest risk the rise in interest rates. For this reason, duration was kept low. These investments were made through ETFs and mainly on credit.

The sub-fund returned 0.21% (Class E) in 2020. The positive return driver was exposure to equities investments. We think it will be a volatile year for the equity markets and we'll have investment opportunities. Regarding fixed income market, risk premiums and corporate risk premiums should be supported by ongoing ECB reinvestments.

CaixaBank Wealth SICAV - CAIXABANK WEALTH LEGERE FUND*

CaixaBank Wealth SICAV - CAIXABANK WEALTH LEGERE FUND* (the "sub-fund") was launched on December 23, 2020. The sub-fund invests in multiple asset classes including money market instruments, equities, bonds and currencies. The sub-fund may get exposure to assets such as commodities and real estate by investing through eligible ETFs, UCITS or other eligible UCI pursuant to the UCITS directive.

Outlook 2021

2021 will still be a challenging year for the global economy. We will have disappointing economic data due to the expected lockdowns as the virus will keep being a reality among us, at least until summer. The vaccine logistics for distribution will be a major challenge and could lead to market disappointment. Also, as profits have not fully recovered, valuations are stretched, unusual when coming out of a recession. All of this should bring market volatility. On the other hand, the strong monetary and fiscal policy support, the lack of alternatives for the more conservative assets and the confidence on the vaccines and their expected victory over the virus over next summer, provides support to the risk assets. Over the second half of the year we should also expect massive fiscal deployment in Europe and in the US. In equities we expect the high divergence between cyclicals and defensive and value and growth stocks to continue. An economical growth outlook should harm the sovereign fixed income market which should be supported by central bank intervention as it should support the corporate bond market.

REPORT OF THE *REVISEUR D'ENTREPRISES AGREE*

Opinion

We have audited the financial statements of CaixaBank Wealth SICAV (the "SICAV") and of each of its sub-funds, which comprise the statement of net assets and the securities portfolio as at December 31, 2020 and the statement of operations and changes in net assets for the year ended December 31, 2020, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the SICAV and of each of its sub-funds as at December 31, 2020 and of the results of their operations and changes in their net assets for the year ended December 31, 2020 in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of July 23, 2016 on the audit profession (Law of July 23, 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the *Commission de Surveillance du Secteur Financier* (CSSF). Our responsibilities under the Law of July 23, 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the *réviseur d'entreprises agréé* for the Audit of the Financial Statements" section of our report. We are also independent of the SICAV in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Board of Directors of the SICAV is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the *réviseur d'entreprises agréé* thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

**MAKING AN
IMPACT THAT
MATTERS**
since 1845

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the SICAV for the Financial Statements

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the SICAV determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the SICAV is responsible for assessing the SICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the SICAV either intends to liquidate the SICAV or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the *réviseur d'entreprises agréé* for the Audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the *Réviseur d'Entreprises Agréé* that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the SICAV's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the SICAV.
- Conclude on the appropriateness of the Board of Directors of the SICAV use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the SICAV's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the *réviseur d'entreprises agréé* to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the *réviseur d'entreprises agréé*. However, future events or conditions may cause the SICAV to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the Financial Statements as at December 31, 2020

Note 1. General information

CaixaBank Wealth SICAV (the "SICAV"), has been incorporated on January 20, 2016 for an unlimited period of time as a *société d'investissement à capital variable* ("SICAV"). It is organised as a *société anonyme* under the laws of the Grand Duchy of Luxembourg, authorised by the Part I of the amended Law of December 17, 2010 (the "Law") relating to Undertakings for Collective Investment in Transferable Securities (UCITS) and listed on the official list of UCITS, held with the Regulatory Authority, having an umbrella structure. The SICAV is registered with the Luxembourg trade and companies register under number B-203451.

CaixaBank Asset Management Luxembourg S.A. (the "Management Company") has been appointed as Management Company of the SICAV. The Management Company is accredited as Management Company in accordance with chapter 15 of the Law.

At a meeting held on March 18, 2016, the Board of Directors of the SICAV (the "Board") resolved to adopt the ALFI Code of Conduct. An annual assessment is performed by the Board to ensure the continuing adherence of the SICAV to the principles and recommendations of the ALFI Code of Conduct.

The registered office of the SICAV is located at 60, avenue J.F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg.

The following Sub-Funds are open to subscription as at December 31, 2020:

- CaixaBank Wealth SICAV - CAIXABANK WEALTH SALUTARIS FUND
- CaixaBank Wealth SICAV - CAIXABANK WEALTH INVESTO FUND
- CaixaBank Wealth SICAV - CAIXABANK WEALTH DEPENDABLE FUND
- CaixaBank Wealth SICAV - CAIXABANK WEALTH CALEDONIAN FUND (Launched on September 7, 2020)

- CaixaBank Wealth SICAV - CAIXABANK WEALTH LEGERE FUND (Launched on December 23, 2020)

Shares of each Sub-Fund may be divided into the Share classes: A, B, C, D, E, and I.

Share classes A, B, C, D and E within the respective Sub-Fund are intended for retail investors and may differ as to the minimum investment and holding amounts.

Share class I is reserved exclusively to institutional investors.

The Share classes A, B, C, D, E and I may be distributing or not and/or currency hedged or not. The active classes A, I and E are non-hedged.

As at December 31, 2020, Share classes A, I and E are open to subscription.

The main objective of the SICAV is to provide Shareholders with medium to long-term capital appreciation by investing in a dynamic and diversified portfolio of assets.

Note 2. Summary of significant accounting policies

The SICAV's financial statements are prepared in accordance with legal and regulatory requirements in Luxembourg relating to Undertakings for Collective Investment in Transferable Securities and generally accepted accounting principles.

a) Combination of the different Sub-Funds

The combined financial statements of CaixaBank Wealth SICAV are expressed in Euro (EUR) and obtained by converting and adding the financial statements of the Sub-Funds denominated in currencies other than Euro (EUR) at the rate of exchange prevailing at the end of the year.

b) Currency conversion

The accounts of the Sub-Funds are kept in the currency of their net asset value and the financial statements are expressed in the same currency.

The acquisition cost of securities purchased in a currency other than that of the Sub-Fund is converted into the currency of the Sub-Fund on the basis of the exchange rates prevailing on the date on which the securities are acquired.

Income and expenses denominated in a currency other than that of the Sub-Fund are converted into the currency of the Sub-Fund on the basis of the exchange rates prevailing on the transaction date.

The market value of the securities in the portfolio (determined as described below), receivables, bank deposits, debts and other net assets denominated in a currency other than that of the Sub-Fund are converted into the currency of the Sub-Fund on the basis of the exchange rates prevailing as at December 31, 2020. The foreign exchange differences resulting from the conversion of receivables, bank deposits and debts are included in the net realised gain/loss on foreign exchange transactions for the year in the Statement of Operations and Changes in Net Assets.

Notes to the Financial Statements as at December 31, 2020 (continued)**Note 2. Summary of significant accounting policies (continued)****c) Valuation of investments**

(i) The value of any cash in hand or on deposit, bills and demand notes payable and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof shall be arrived at after making such discount as the Board of Directors of the SICAV may consider appropriate in such case to reflect the true value thereof;

(ii) The value of Transferable Securities, Money Market Instruments and any financial assets listed or dealt in on a stock exchange of another State or on a Regulated Market, or on any Other Regulated Market of a Member State or of an Other State, is based on the last available closing or settlement price in the relevant market prior to the time of valuation, or any other price deemed appropriate by the Board of Directors of the SICAV;

(iii) The value of any assets held in a Sub-Fund which are not listed or dealt in on a stock exchange of another State or on a Regulated Market or on any Other Regulated Market of a Member State or of an Other State or if, with respect to assets quoted or dealt in on any stock exchange or dealt in on any such Regulated Markets, the last available closing or settlement price is not representative of their value, such assets are stated at fair market value or otherwise at the fair value at which it is expected they may be resold, as determined in good faith by or under the direction of the Board of Directors of the SICAV;

(iv) Units or Shares of open-ended UCI (Undertaking for Collective Investment as defined by the Law) are valued at their last determined and available official net asset value as reported or provided by such UCI or their agents, or, if such price is not representative of the fair market value of such assets, then the price is determined by the Board of Directors of the SICAV on a fair and equitable basis. Units or Shares of a closed-ended UCI are valued in accordance with the valuation rules set out in items (ii) and (iii);

(v) The liquidating value of futures, forward foreign exchange or options contracts not traded on a stock exchange of an Other State or on Regulated Markets, or on Other Regulated Markets means their net liquidating value determined, pursuant to the policies established prudently and in good faith by the Board of Directors of the SICAV, on a basis consistently applied for each different variety of contracts. The liquidating value of futures, forward foreign exchange or options contracts traded on a stock exchange of an Other State or on Regulated Markets, or on other Regulated Markets is based upon the last available settlement or closing prices as applicable to these contracts on a stock exchange or on Regulated Markets, or on Other Regulated Markets on which the particular futures, forward foreign exchange or options contracts are traded on behalf of the SICAV; provided that if a future, forward foreign exchange or options contracts could not be liquidated on the day with respect to which assets are being determined, the basis for determining the liquidating value of such contract is such value as the Board of Directors of the SICAV may deem fair and reasonable. All net realised gains and losses and net changes in unrealised appreciations and depreciations are included in the Statement of Operations and Changes in Net Assets;

(vi) All other securities, instruments and other assets are valued at fair market value, as determined in good faith pursuant to procedures established by the Board of Directors of the SICAV.

d) Income

Dividends are recognised as income on the date when shares are quoted ex-dividend for the first time. Dividends and interest received by the SICAV on its investments are in many cases subject to irrecoverable withholding taxes at source.

A provision is created for interest at the time of each Net Asset Value calculation.

e) Net realised gains and losses on sales of investments

Investments in securities are accounted for on a trade date basis. Realised gains and losses on sales of investments are calculated on the average cost basis. Other principles such as FIFO (First In First Out) are acceptable. All net realised gains and losses and net changes in unrealised appreciations and depreciations are included in the Statement of Operations and Changes in Net Assets.

f) Formation expenses

The charges relating to the creation of a new Sub-Fund are borne by the Sub-Fund exclusively and are charged to the Sub-Fund immediately or, upon the Board of Directors of the SICAV's decision, amortised over a period of 5 years with effect from the launch date of the Sub-Fund.

The formation expenses of the the Sub-Fund CaixaBank Wealth SICAV - CAIXABANK WEALTH CALEDONIAN FUND* are amortized over a period of 2 years with effect from the launch date of the Sub-Fund. The Sub-funds CaixaBank Wealth SICAV - CAIXABANK WEALTH NYALA INVESTMENTS FUND* and CaixaBank Wealth SICAV - CAIXABANK WEALTH LEGERE FUND* are not subject to formation expenses.

* Please see Note 1.

** Launched on April 7, 2020.

The Investment Manager and the Global Distributor or the distributors may choose to waive all or any portion of the Management Fee at their absolute discretion for an indefinite period.

Note 5. Management Company fees

The SICAV pays a Management Company Fee to the Management Company, payable quarterly, at an annual rate of 0.10% maximum per annum, subject to a minimum of EUR 15,000 per annum per Sub-Fund, which is calculated on the average total net assets of the Sub-Fund(s). The Management Company is also entitled to receive an annual fee of EUR 3,500 per non-complex Sub-Fund for the performance of risk management services.

Note 6. Depositary fees

The Depositary Agent receives a monthly fee which does not exceed 0.75% per annum of the net assets of each Sub-Fund (at the end of the relevant month).

Note 7. Domiciliary, Administrative and Registrar and Transfer Agent's fees

The Domiciliary, Administrative and Registrar and Transfer Agent receive for the accomplishment of their functions a maximum annual fee of 2% of each Sub-Fund's average Net Asset Value per year.

For the year ended December 31, 2020, the Domiciliary, Administrative and Registrar and Transfer Agent fees are included in the Statement of Operations and Changes in Net Assets.

Notes to the Financial Statements as at December 31, 2020 (continued)**Note 7. Domiciliary, Administrative and Registrar and Transfer Agent's fees (continued)**

In addition, the Domiciliary, Administrative and Registrar and Transfer Agent are entitled to be reimbursed by the SICAV for their reasonable out-of-pocket expenses.

Note 8. Taxe d'abonnement

The SICAV is subject in Luxembourg to a "taxe d'abonnement" of 0.05% per annum on its Net Asset Value, except for the Shares reserved for Institutional Investors who may benefit from the reduced rate of 0.01%. The "taxe d'abonnement" is payable quarterly and is calculated on the basis of the net assets of the SICAV at the end of the relevant quarter.

In accordance with article 175 (a) of the Law, the portion of the net assets invested in UCIs already subject to the "taxe d'abonnement" is exempt from this tax.

Note 9. Foreign exchange

The value of the assets and liabilities denominated in a currency other than the reference currency of the relevant Sub-Fund (EUR) is converted at the rates of exchange prevailing in Luxembourg at the time of the determination of the corresponding Net Asset Value. As at December 31, 2020, the foreign exchange rates were as follows:

1 EUR =	1.081550	CHF	1 EUR =	1.223550	USD
